kn90vignesh@gmail.com
UAN NO: 101808255270

PROFESSIONAL SUMMARY :

Highly skilled Software Engineer with over 9 years of experience in full-stack development, specializing in Angular for more than 4 years. Proficient in a wide range of programming languages and frameworks, with deep expertise in both frontend and backend development. Demonstrated ability to deliver innovative solutions, optimize performance, and build scalable applications. Adept at collaborating within dynamic teams to drive high-impact projects. Seeking a challenging role to leverage my technical expertise and contribute to the success of an innovative and growth-focused organization.

TECHNICAL SKILLS :

- **Languages :** JS, TS, PHP,Python
- **Frontend :** Angular, HTML5, CSS3, Bootstrap
- **Backend :** Node.js, Laravel, CodeIgniter, Socket.io
- **Databases** : MySQL, MongoDB, Redis,PostgreSQL
- **Cloud** : DigitalOcean
- **DevOps :** Git, Nginx
- **Other :** REST API, OAuth2.0, WebSockets, Payment Gateway, Asterisk (AMI/ARI), WebRTC, SIP, AI Integration (OpenAI)

PROFESSIONAL EXPERIENCE :

Zervvo Technologies Pvt Ltd **Mar 2025 - Present**
Mean Stack Developer

Led the development of CRM and dating applications using Angular 20+, Node.js, MySQL, and Laravel. Managed development teams, conducted code reviews, and optimized APIs and database performance. Developed Asterisk-based VoIP solutions with SIP trunk integration, call routing, and WebRTC. Integrated OpenAI and Python-based real-time call transcription to deliver AI-powered conversation analysis and scalable contact center solutions.

Ask Eva **Aug 2023 - Nov 2024**
Team Leader

Spearheaded the integration of Angular v16, Node.js, and MongoDB to develop real-time chatbots using Socket.IO and the WhatsApp API. Designed scalable chatbot solutions, enhancing customer engagement and automating workflows. Collaborated with teams to define project requirements, timelines, and objectives. Optimized backend services for performance and scalability in handling large volumes of messages

Fire Bee Techno Services Pvt Ltd **Aug 2022 - May 2023**
Mean Stack Developer
Led application development using Angular v14, Node.js, MySQL, and Laravel from conception to deployment. Managed teams to deliver cryptocurrency exchange platforms compliant with industry standards and security protocols.Conducted code reviews, mentored developers, and enforced best practices. Optimized messaging services, API integrations, and data management with MySQL.

Great Innovus Solutions Private Limited **April 2022 - Aug 2022**
Software Engineer
Developed and maintained real-time manufacturing analytics solutions using JavaScript, enhancing data visualization and operational insights. Debugged and resolved issues, ensuring system reliability and uptime in production environments.

Spiegel Technologies - Blockchain Development **Feb 2018 - April 2022**

Full Stack Developer

Led development of REST API web applications, mobile API integration, and eCommerce platforms using Angular v12, Node.js, MySQL, and CodeIgniter. Optimized eCommerce projects with secure payment gateways and userfriendly interfaces. Architected scalable solutions, integrating APIs for seamless crossplatform experiences.Collaborated with teams and clients to deliver projects on time and within scope.

iCowboysMedia LLC Solutions **Feb 2016 - Feb 2018**

Web Developer

Developed dynamic web applications with Core PHP, ensuring clean code and functionality.Built and customized WordPress websites, optimizing plugins, themes, and user experience. Enhanced front-end interactivity using jQuery and JavaScript for responsive designs. Debugged and resolved front-end and back-end issues for smooth application performance

EDUCATIONS :

ALAGAPPA UNIVERSITY **2014-2016**

Master of Business Administration (HR)

THIAGARAJAR ARTS AND SCIENCE COLLEGE **2010-2013**

Bachelor of Arts (English)

PROJECTS :

Telephony - Flexz.ai

- Designed and developed a cloud-based telephony CRM using **Angular, Node.js, MySQL, and Asterisk (AMI/ARI)**.
- Built inbound, outbound, predictive, and queue-based call management workflows.
- Integrated **WebRTC, SIP trunks, IVR, call recording, live transcription (OpenAI Whisper), sentiment analysis, and AI-powered call insights**.
- Developed real-time agent dashboards, RTA monitoring, forecasting, scheduling, and reporting modules using **Socket.IO**.

CRM - Flexz.ai

- Developed a scalable CRM application using **Angular, Node.js, Laravel, and MySQL**.
- Implemented customer, lead, contact, deal, task, and activity management modules.
- Built role-based access control, workflow automation, notifications, reporting, and REST APIs.
- Integrated third-party services, optimized MySQL queries, and improved application performance and scalability.

Askeva - WhatsApp AI chatbot

Angular v16, Nodejs,MongoDB,Socket IO,AWS Lambda, Whatsapp API

- Automated campaign messaging and managed real-time customer interactions.
- Developed a dynamic UI for enhanced user experience
- Implemented robust backend logic to efficiently handle business processes.
- Features included automated scheduling, real-time interaction management, and reliable message delivery with error handling.
- Streamlined communication processes, reducing manual intervention and improving overall efficiency.

All Buy Crypto

Angular Framework v16, Nodejs,Mysql, Payment Integration,Google Authenticator, Oauth2.0,SMS Gateway,Socket.io, Redis

- Developed a platform for secure cryptocurrency transactions with real-time updates
- Created an intuitive user interface and Implemented robust backend logic.
- Integrated secure authentication and payment processing systems.
- Ensured seamless and secure communication throughout the platform.

1boxoffice

Codeiginter, Trustpilot,Razorpay Payment Gateway, Mysql

- Developed a comprehensive event management and ticketing platform for venues, promoters, and individuals.
- Streamlined event organization, ticket sales, and attendee management.
- Provided a robust solution for efficiently handling various types of events.

APS Laundry

Codeiginter, Mysql

- Specialized POS and Pickup & Delivery software for dry cleaners, laundromats, and alterations.
- Streamlines operations, enhances customer service, and optimizes workflow for laundry businesses.
- Features include online booking, scheduling, and real-time order tracking.
- Provides reporting and analytics for informed decision-making.
- Ensures scalability and accessibility through cloud-based solutions.

MyBigShop

Codeiginter, Mysql

- Developed a supermarket billing system using CodeIgniter.
- Integrated QR code scanning for efficient checkout.
- Streamlined billing, inventory management, and customer transactions.
- Enhanced operational efficiency for supermarkets.

Cuckooradio

Wordpress, Core PHP, Mysql

- Developed an online streaming platform for Tamil-speaking communities in the USA.
- Utilized WordPress for the website interface.
- Employed Core PHP for backend services and Managed data with MySQL.
- Provided a seamless streaming experience for Tamil listeners.

Agas Matrimony

Core PHP, Mysq, HTML,CSS

- Developed a matrimonial website using Core PHP and MySQL.
- Provided a comprehensive platform for users to connect, search, and manage matrimonial profiles.
- Offered a reliable and user-friendly service for finding life partners.

STRENGTH :

Leadership and Team Management: Proven ability to lead and inspire cross-functional teams, driving projects to successful completion while fostering collaboration and innovation.
Strategic Vision: Expertise in developing and executing technology strategies that align with business objectives, ensuring scalable and sustainable growth.
Technical Proficiency: In-depth knowledge of a wide range of technologies and frameworks, including Angular, Node.js, Laravel, and various database systems, enabling effective problem-solving and solution design.
Project Management: Strong skills in managing complex projects from conception to deployment, utilizing Agile methodologies to deliver high-quality results within deadlines and budgets.
Technical Mentorship: Adept at mentoring and training team members, promoting skill development and knowledge sharing to build a high-performing technical team.

DECLARATION :

I hereby declare that the information furnished above is true to the best of my knowledge.
